GOV. QUINN TO SPEAK AT ASSOCIATION'S ANNUAL MEETING

ROSEMONT, IL – The Builders Association is honored to welcome **Governor Pat Quinn** as its keynote speaker at the Annual Meeting on Thursday, December 3 at The Drake Hotel in Downtown Chicago.

Since taking office in January, Gov. Quinn has approved a \$31 billion capital improvement bill, the first that the state of Illinois has seen in over ten years. The Illinois Jobs Now! Program calls for the construction of schools, roads and public transit. He has also served as Lieutenant Governor and Illinois State Treasurer.

Ted Aadland, CEO of Aadland Evans Constructors, Inc. in Portland, OR. will also speak at the Annual Meeting. Aadland is the incoming President of the AGC of America, the nation's largest construction advocate, which the Builders Association helped to found in 1918.

The Builders Association is the leading trade association serving the Chicago area commercial construction industry since 1906. We are proud to continue our long tradition of bringing in national and local construction leaders to speak to members about the issues that concern their business.
