

Contractor Safety Forum

Technically Safe

The worlds of technology and construction jobsite safety converge at the next Contractor Safety Forum February 9, as Safety & Health Committee members will discuss the use of Field ID and other tools to help keep workers safe.

Field ID is a paperless safety compliance and inspection management system. The software combines web-based technologies with mobile devices to improve the efficiency, reliability and reporting of safety management.

Learn more about Field ID from contractors who have used it to enhance their own jobsite safety, and participate in an open forum discussion on other issues with safety personnel from the best contractors in Chicagoland.

Attendees Win A Chance At A Free One-Year Subscription To Field ID

Sponsored By:

Activation of Field ID is valued at close to \$4,500. Raffle winner will receive:

- One-year Enterprise plan to subscription software
- Free set-up and training
- Unlimited customer support and the online Field ID University program

Go to www.fieldid.com to view their new whitepaper, "Construction Compliance: Moving Site Safety To The Cloud."

**Thursday, Feb. 9th, 2012,
8-10 a.m.**

**Chicagoland Construction
Safety Council, Hillside**

*Breakfast will be provided.
